PROFILE

I care about value-driven design that strives for positive social impact. Growing up in a home that hosted 56 exchange students from 16 different countries fostered my love of travel and language learning. If I'm not in Figma or planning my next international adventure, you can usually find me backpacking or climbing around the Bay Area.

EDUCATION

B.S. | Human Centered Design & Engineering Minor | Linguistics

University of Washington, Seattle

2017-2021 | GPA: 3.98

UX Certificate in Interaction Design

Nielson Norman Group, Vancouver
